The Convergence of Conservation Agriculture and the System of Rice Intensification: Potential for Expansion in Sustainable Food Production

Amir Kassam

**Thursday December 19
10:00- 11:30 a.m.
135 Emerson Hall
refreshments provided**

Amir Kassam is an adviser with FAO on sustainable production intensification and moderator of the FAO-hosted global platform on the Conservation Agriculture Community of Practice. He is visiting professor at Reading University, UK, where he teaches a post-graduate course entitled Rethinking Agriculture Development. Kassam has served as deputy director general at WARDA (now the Africa Rice Centre), chairman of Aga Khan Foundation (UK), and senior research officer at the CGIAR Science Council Secretariat.
